MONROE DOCTRINE STRONGER THAN EVER

WILLIAM F. M. BORLAND.

MONROE LAKE, May 20.—The Monroe Doctrine has been of inestimable benefit to the New York and is today stronger than ever. Representative William F. M. Borland of Missouri told the Conference on International Arbitration here.

He said in part:
"It is now nearly a century since the Monroe Doctrine, so called, was announced by an American president in a purely domestic state document, an annual message to congress, and yet, never was the doctrine more deeply rooted in the affection of the people, and never would it be more unwise to challenge it, than today."

"The initial purpose of the Monroe Doctrine was to secure to the American nations a fair opportunity to work out their national destinies free from the fetters of European feuds and factions."

"If the Monroe Doctrine has kept the nations of Europe from being embroiled in American politics, it has also kept the American nations from being embroiled in the politics of Europe."

"The Monroe Doctrine has fully justified its existence in keeping the Americans out of the present conflict that has engulfed nearly the whole of the civilized world. Without it we would certainly have been involved in the opposing parties each held important territories on this side of the water."
